PROFILE

Experienced frontend developer with a focus on Vue.js, complemented by backgrounds in game development, software engineering, and testing. Through personal projects and IT-Assistant Ausbildung, I've cultivated technical proficiency and problem-solving abilities. Skilled in analyzing complex issues, devising practical solutions, and implementing them efficiently. Additionally, my effective communication skills facilitate smooth collaboration and clear explanation of technical concepts to diverse audiences. Thriving in collaborative settings, I approach challenges with adaptability and a relentless drive for self-improvement.

EXPERIENCES

- HTML (S)CSS JS TypeScript
- Vue
- BEM
- SCSS, Responsive Design, JSON, Git
- C/C++, C#
- Working with APIs
- WordPress, Elemntor, Making a Theme from scratch
- Adobe XD, Framer
- Microsoft Office (Word, Excel, PowerPoint)

LIMITED EXPERIENCES

- React, React Testing Library
- Unit Testing
- PHP
- StoryBook
- Python
- Unity

CURRENTLY WORKING ON

I am actively expanding my portfolio, learning about new technologies, and improving my skills in the areas I am already experienced in.
